

ADVANCE YOUR **RESPIRATORY CARE** CAREER 100% ONLINE

Expand your career opportunities with the **LSU Health Shreveport online Bachelor of Science in Cardiopulmonary Science**. This Degree

Advancement Program is designed for practicing respiratory therapists who want to take command of their career.

The program builds on your existing knowledge and expertise to prepare you for roles in leadership, management, education, research, and advanced clinical practice. This degree aligns with the American Association for Respiratory Care's declaration that respiratory therapists entering practice in 2030 and beyond should have a minimum of a bachelor's degree.

30

CREDIT HOURS

\$355

COST/CREDIT HOUR

This degree completion program provides the final 30 credit hours needed to complete your bachelor's degree, allowing you to build on your previous education and graduate faster.

WHY THE BS IN CARDIOPULMONARY SCIENCE?

STREAMLINED TRANSFER PATHWAY

This program is designed for students who hold a CoARC-accredited Associate's degree (Associate of Science or Applied Science) in Respiratory Therapy and a valid RRT credential from the National Board for Respiratory Care.

EXPERT FACULTY

Courses are taught by seasoned educators with advanced degrees and specialty credentials.

FLEXIBLE LEARNING

The 100% online coursework allows you to balance your career and education with a convenient program for working professionals. You can finish the degree in **as few as 10 months** or take up to 24 months to complete it.

SUPPORTS AARC OFFICIAL DECLARATION

This program supports Respiratory Therapists in attaining the minimum requirements for practicing in 2030 and beyond.

*The CPS DA program holds Provisional Accreditation from the Commission on Accreditation for Respiratory Care <http://www.coarc.com>.
